

SRIMATHI R

Data Analyst | Python, SQL & Power BI

Trichy, Tamil Nadu | srimathiramaraj27@gmail.com | 6380140128 | [linkedin.com/in/srimathi-ramaraj](https://www.linkedin.com/in/srimathi-ramaraj)

PROFESSIONAL SUMMARY

B.E. Electrical and Electronics Engineering graduate with hands-on experience in Python, SQL, and Power BI through applied analytics projects. Skilled in data cleaning, dashboard development, and KPI reporting, with a strong foundation in translating raw data into actionable business insights. Seeking an entry-level Data Analyst role to apply analytical and problem-solving skills to support data-driven decision making.

TECHNICAL SKILLS

Languages & Tools: Python, SQL (MySQL), Power BI, Excel

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Core Competencies: Data Cleaning, Data Modeling, Data Mining, Data Visualization, Dashboard Development, ETL, KPI Tracking, Reporting, Root Cause Analysis, Business Analytics, Machine Learning Fundamentals

PROJECTS

Financial Transaction Risk & Fraud Analytics Dashboard | *Power BI*

- Built a Power BI dashboard analyzing 5,000+ transaction records to identify fraud patterns, flagging high-risk transactions across multiple risk categories for faster review.
- Designed KPI cards and drill-down visuals that reduced manual transaction review effort and improved risk visibility for decision-making.

Banking Loan Data Analysis | *Python*

- Analyzed loan dataset using Python (Pandas, NumPy) to evaluate funding trends, loan performance, and bad-loan risk indicators across borrower segments.
- Identified key variables correlated with loan default risk, supporting data-backed lending insights.

India General Election Results 2024 – Power BI Dashboard | *Power BI*

- Built an interactive Power BI dashboard analyzing state-wise results across 540+ constituencies to track party performance and seat distribution.
- Visualized results using dynamic charts, slicers, and KPIs, enabling quick comparison across states and parties.

Logistics Performance Dashboard | *Power BI*

- Developed a Power BI dashboard to monitor logistics operations, tracking order volume and delivery status across multiple regions.
- Built KPI metrics and visualizations that highlighted delivery bottlenecks and performance trends.

Design & Implementation of High Conversion Ratio Boost Converter | *Renewable Energy Applications*

- Designed a high-gain boost converter using capacitors, inductors, and switching circuits, improving voltage output efficiency.
- Improved overall power conversion efficiency through optimized circuit design.

Line Following Robot | *Embedded Systems*

- Developed an autonomous robot using IR sensors, a microcontroller, and a motor driver for automatic path detection.
- Enabled reliable real-time navigation along a predefined line through sensor-driven logic.

EDUCATION

Saranathan College of Engineering — B.E. Electrical and Electronics Engineering | 2021 – 2025

- CGPA: 7.9 / 10

Arockiamatha Matric. Hr. Sec. School, Trichy — H.S.C. | 2020 – 2021

- Percentage: 87%

CERTIFICATIONS

- Master Program in Data Analytics — FITA Academy (Python, SQL, Power BI) Link
- Java Basics Certification — Happy Skilling
- Microgrids Presentation — Kalaignar Karunanidhi Institute of Technology
- In-Plant Training — High Energy Batteries India Ltd.
- In-Plant Training — Diesel Loco Shed

LANGUAGES

Tamil, English
